

LESSON 5 - ASSIGNMENT

1. Make a drawing of the pieces of wattles you have collected on a sheet of paper. Write the name (if you can identify it) under each, along with a description of that plant, and a note as to where it came from.
2. In what way are wattles different from plants in the Fabaceae family? (Answer in one sentence)
3. Write a report summarising your set task and including:
 - Pre planning information (eg. conditions on the site such as soil, weather, pests)
 - Criteria for selecting acacias for that site.
 - List of 25 species selected.
4. Prepare a planting design, drawn to scale, for the site you investigated in your set task (a suitable scale would be 1:100; or 1 cm = 1 metre.
5. Prepare a plan for implementing the planting design from the previous question. This should include:
 - A list of quantities of materials required (eg. plants, fertiliser stakes etc)
 - An estimate of costs of materials
 - A list of equipment required (eg. tools, machines)
 - An estimate of labour requirement.

REMEMBER TO SUBMIT YOUR PLANT COLLECTION
