Bees, Beekeeping & Honey Ebook

ISBN: 978-0-9943737-5-5

Pages: 106

Images: 56

We are excited to announce that we have released a new ebook called 'Bees, Beekeeping and Honey'. This ebook has been written by John Mason and the staff of ACS Distance Education.

The 'Bees, Beekeeping and Honey' ebook has been written to provide people who would like to start their own bee hives and covers everything that you need to know about bees, bee keeping and honey. This ebook covers all of the essentials on bees, bee physiology, hive management and caring for the health of bees. This is a great introduction for anyone who has an interest in bee keeping, but not sure where to start.

In addition to helping pollinate your garden and providing you with more flowers, fruit and vegetables, keeping bees is useful as you can also collect honey from bees in the garden. You can make so many products from honey and other by products from keeping bees. If you are looking to be more self-sufficient or even start your own business, keeping bees is a great way to go. Another benefit to keeping bees is that it will also help increase the bee population, which is in decline. So do your bit for your garden, for your pantry, for your new enterprise and for the environment and read all about keeping and caring for bees today!

This ebook is now available for purchase for \$32.95 including GST from our online bookshop and there is also a free sample available here:
